

## **VISION STATEMENT**

St. Mary's General Hospital will be a leader in health care excellence characterized by compassion, innovation and respect for the individual.

## **STRATEGIC DIRECTIONS (2002 – 2007)**

**We will align our clinical programs based upon the Board's approved plan with Centres of Excellence in:**

**Cardiology and Cardiac Surgery  
Thoracic Surgery and Respiriology  
Minimally Invasive Surgery  
Ophthalmology  
Urology**

**We will ensure that patient safety is a top priority in the delivery of all care and service at St. Mary's General Hospital, and that the necessary processes and systems are in place to monitor, manage and improve patient safety, on an ongoing basis.**

**We will undertake and promote exemplary internal/external partnerships and relationships.**

**We will be regarded by employees as an extraordinary employer, creating a positive and productive work environment that places high value on our greatest resource – our staff, physicians and volunteers.**

**We will expand, renovate and enhance our physical facilities according to our redevelopment master plan.**

**We will keep pace with technological advancements, especially in areas of clinical emphasis.**
