7. **Presentations/Updates**

   7.1 **Cardiac Program Update**
   
   **Cardiac Program Strategic Plan**
   
   Ms. Karolina Perraud, Dr. Brian McNamara, and Ms. Andrea Lemberg discussed progress on the Cardiac Program Strategic Plan. The requirements were listed in a comprehensive plan that was included for review in the package.

   The project plan has been laid out in three phases. The project is progressing towards the end of phase 2: engaging stakeholders and the submission of the plan. A formal report will provided to the Board at the February meeting.

   Dr. McNamara mentioned that representatives from the WWLHIN, SMGH, physicians, community and patients have been involved in the consultation process and that the team is very grateful to the WWLHIN for their support.

   Dr. Smith suggested that an analysis should be provided at each stage for the current state of the number of patients served compared to the future state.

   A high-level estimate was provided, totaling $42M of which approximately $25M will be requested to Capital Branch and $16M to the Provincial Program Branch of the MOHLTC. In addition, approximately $2.5M will be contributed by the hospital, but no equipment costs will be included. Operating expenses should be covered by the associated procedure funding.

   On behalf of the Board of Trustees, Mr. Motz requested to convey the message that the Board is very much behind the project.

   It was noted that the timeline for the submission, hopeful approval and the PRISM transition is good timing as the EMR will have to be configured appropriately. It is unlikely we will see a conflict.
