# Waterloo Wellington Hospital Capacity Report (Omicron Wave)

Beds Available and ED Activity

This section highlights available beds at a point in time to support patients presenting at our hospitals. Positive numbers suggest there are beds available to support patients. A negative number means that a hospital is full, and supporting patients waiting for admission from the ED.

Reminder: *The total beds in our region has increased by 235, (nearly a third more for each hospital that was able to add beds). To support the recent Omicron surge further additional beds have been added.*
